SOFT SKILLS

- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

TECH SKILLS

- Python
- Java
- C / C++
- Docker
- Spring Boot
- SQL, MySQL, MongoDB
- Java Script
- MERN Stack
- Web Development
- Socket.IO
- Kubernetes
- React Native

PROFILE

A proactive and adaptable software engineering undergraduate with hands-on experience in developing full-stack applications, real-time systems, and AI-powered solutions. Skilled at managing multiple commitments effectively and thriving under pressure. Currently focusing on Java backend development using Spring Boot and looking to contribute to scalable backend systems. Seeking an internship to apply technical expertise, further develop my skills, and grow as a reliable, self-motivated professional.

EDUCATION

Software Engineering Undergraduate — 2022 - Present
Sri Lanka Institute of Information Technology
GPA: *3.03 / 4.0*

Higher Diploma In Information Technology — 2022 - 2024
Sri Lanka Institute of Information Technology

G.C.E. A/L - Advanced Level (Physical Science) — 2019 - 2021
Taxila Central College, Horana
Results: *S - 3*

G.C.E. O/L - Ordinary Level — 2016 - 2018
Sri Sumangala College, Panadura
Results: *A - 9*

WORK PROJECTS

Hotel Reservation Management System (2025)

Led the development of the hotel reservation system for Lavendish Leisure Hotels and Resorts (Pvt) Ltd, enabling centralized booking management, real-time room availability tracking, and seamless communication through a real-time chat system.

Technologies Used: *React, Node.js, MongoDB, Express, Socket.io, Tailwind css*

Appointment Management System(2025)

Built a MERN-based appointment scheduling system with conflict resolution logic to manage employee bookings. Included real-time validations, dynamic slot management, and a responsive Tailwind CSS interface tailored for executive-level use.

Technologies Used: *MERN Stack, JavaScript, Tailwind CSS*

LANGUAGES

- English (Fluent)
- Sinhala (Fluent)

SKILLED IDES

- Eclipse
- IntelliJ
- Visual Studio
- VS Code
- Dev C++
- Android Studio
- PyCharm

WORK EXPERIENCE

Assistant Web Developer
Dec 2024 - June 2025

Dedigama Group (Pvt) Ltd

As an Assistant Web Developer at Dedigama Group (Pvt) Ltd, I manage and maintain the company website, develop innovative chatbots, and contribute to the creation of systems like hotel reservation management, ensuring seamless user experience and operational efficiency.

ACADEMIC PROJECTS

Skill Sharing Platform (2025)

Designed and developed a full-stack cooking skill-sharing platform with features like recipe uploads, video sharing, article browsing, user authentication, and modern UI/UX.

Technologies Used: *Spring Boot, Hibernate, MySQL, React, Tailwind CSS*

Multi-Language Platform for Beginner Programmers (2024)

Designed and developed a responsive platform for teaching beginner programming in C, C++, Java, and Python, featuring interactive course content, CRUD-based course management, user authentication, a web-based IDE, and admin tools.

Technologies Used: *MERN Stack, Postman, Tailwind css, Jdoodle Api*

Cloud-Native Food Ordering System (2025)

Built a microservices-based food delivery app using Docker and Kubernetes. Implemented real-time order tracking with Socket.IO, integrated Stripe for payments, Google Maps API for live location tracking, and Twilio for SMS notifications.

Technologies Used: *MERN Stack, Docker, Kubernetes, Socket.IO, Stripe, Google Maps API, Twilio*

Online Event Management System (2023)

Developed an Online Event Management System to streamline event planning, featuring scheduling, attendee registration, real-time updates, automated email notifications, event calendars, and participant management.

Technologies Used: *Java, HTML, CSS, JSP Servlet, SQL, Apache Tomcat.*

Smart Presentation Management System (2025)

Developed a MERN-based system to schedule university presentations efficiently using a smart suggestion feature that avoids conflicts with lectures, venues, and examiner availability. Included role-based access, real-time validation, and a responsive Tailwind CSS UI.

Technologies Used: *MERN Stack, JavaScript, Tailwind CSS*
